

## Transform Information Overload into Information Action

GDI InfoReady™ solutions tackles the challenges of getting to the information you need to drive business growth and productivity.

- Easily find, gather, filter and validate information needed from disparate sources both internally and from the Web.
- Use the latest Web business and social networking technology to reach and collaborate with an extended team of researchers, collaborators, partners & stakeholders from within and outside your organization and drives actions, transparency and accountability.
- Automate and track the progress of the team actions, activities, requests, feedback, programs and ideas.
- Discover and create new revenue sources, save valuable time with a clear return on investment.

*GDI InfoReady™ Solutions leverage the power of the Web to search, aggregate and filter information from disparate sources into actionable information*

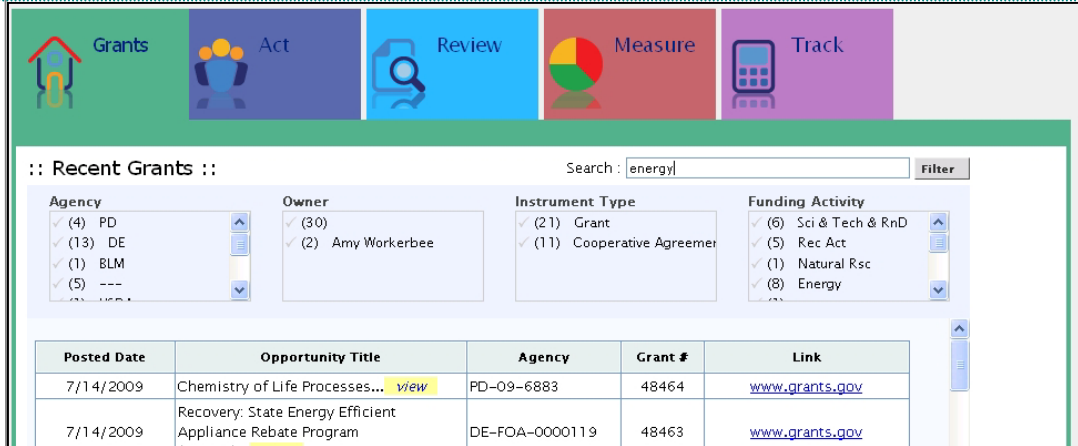

*GDI InfoReady™ Solutions are available for many information action driven applications*

*Give us your great ideas!*

GDI InfoReady™ applications search, gather, filter, validate, match and act upon information from disparate sources from the web and internally. These applications include:

- Grants – Find the grants you need, collaborate with key stakeholders and track activity
- Expertise – Identify, match, and collaborate with experts, faculty, technology and companies
- Matchmaking – Find, validate and match skills & technology with potential partners and alliances
- Best Practices – Find, share and collaborate on ideas and programs between organizations

*GDI InfoReady™ leverages a powerful search, gather, and aggregation engine with “advanced context filters” to hone in and validate the right information*
